STARCK BY WARENDORF:

“Primary” kitchen in Luxe material combination

“Primary” speaks the unmistakable language of neo-baroque design with its surround in yellow mirrored glass featuring etched details and playful wall fixtures. Stainless steel base units, shelves and niche cladding provide a contrast to the yellow glass. The shiny chrome profile framing the niche cut-out reinforces the mirror effect of the fronts and the modestly proportioned elements are given additional emphasis. This Philippe Starck design shows that exceptionally creative design can come in small units as the picture shows.

Included in the range is a stainless steel tall unit with yellow mirrored niche frame and a bar table with yellow mirror top, etched decoration and polished chrome trumpet foot.
