For five years, IDEAT Germany has accompanied Maison Pierre Frey with curiosity, commitment and a true sensitivity to creation.
Time has passed, yet our shared passion for creativity remains as strong as ever.
From wallpapers, fabrics and carpets to collaborations with artists such as Jean-Charles de Castelbajac and our furniture designers, IDEAT has followed each launch with great attention and generosity.
What truly unites us is a common conviction: placing creation at the very center and celebrating it in all its forms.
