Lighter side of the hat

French designer Philippe Starck has illuminated the hat stand. Or, is it the other way round? The newly launched Chapo is a table lamp, which doubles as a hat stand. It is a lamp whose style, character and shape can change depending on the hat that is placed on top of it. Any hat can be repurposed as its lampshade for varying looks. An aluminium stem starts from the corner of a square-shaped base and terminates with an LED light at the top. In addition, a USB socket on the base enables you to recharge your smartphone and tablet. Though minimalist, the design looks stunning and the lamp is sure to become the standout object of a room.

Price: Rs 30,000
